

# Jennifer Quimby

CASY-MSCCN  
DIRECTOR OF TECHNOLOGY

**Jennifer Quimby** is the Director of Technology for the Military Spouse Corporate Career Network (MSCCN) and Corporate America Supports You (CASY), two unique non-profit organizations that provide employment readiness and job placement assistance for all veterans, military spouses, National Guard and reserves, transitioning military, and caregivers of war wounded.

**Jennifer** met, and later married, her Air Force husband while working as a foreign national for the American Air Force at Rhein-Main AFB, Germany. They have two daughters and, during their 20 years as an Air Force family, they had two tours in Germany and multiple assignments at bases throughout the Continental United States. The multiple moves, and the added complications of being a foreign national, gave Jennifer a unique perspective on the challenges faced by military spouses as they search for employment. In addition, watching her husband's struggles to find meaningful and rewarding employment after his retirement from the Air Force, opened her eyes to the difficulties military members encounter when transitioning into the civilian workforce.

Prior to CASY-MSCCN, **Jennifer** worked in many different industries from military contractor to medical insurance and equipment design, education to engineering, in both public and private arenas; during that time, she gained a wealth of experience across a wide range of career fields. In her current position as a member of the CASY-MSCCN Executive Team, she is responsible for customizing and maintaining the organization's Candidate Management System, 2x BrassRing, generously donated to the organization by Kenexa-IBM. She also designed and maintains the organization's Web sites, databases, and secure portals. Additionally, she performs bookkeeping and payroll duties for both organizations.

In her spare time, **Jennifer** is a Zumba enthusiast, loves "hanging out" with her (now adult) daughters, and learning new skills.
